

SAI S AKULA

saisakula2000@gmail.com | www.linkedin.com/in/saisak | Austin, TX | (972) 863-2036

Data and BI Analyst with experience supporting banking, payments, and retail organizations. Experienced in SQL, Python, Tableau, and Power BI, specializing in performance analytics, risk monitoring, KPI development, dashboard automation, and business process optimization. Currently applying AI-assisted workflows and LLM tools to accelerate analysis and reporting

TECHNICAL SKILLS

- **Languages:** Python, SQL, R, SAS
- **Visualization & BI:** Tableau, Power BI (DAX, Power Query), Looker, Excel (VBA, Pivot Tables), QuickSight, Alteryx
- **Database:** PostgreSQL, MySQL, SQL Server, Snowflake, BigQuery, Oracle
- **Engineering & Cloud:** ETL/ELT, dbt, PySpark, Databricks, AWS (S3, Athena, Redshift), Azure, Airflow, Git
- **AI, Automation:** Prompt Engineering, LLM-Assisted Workflows (Claude API, Claude Code), AI Analytics, Agentic Workflows
- **Methods:** A/B Testing, Regression, Forecasting, Predictive Modeling, Machine Learning, Segmentation, Data Modeling, Data Warehousing, Data Governance, Stakeholder Management, Agile (JIRA)

EXPERIENCE

US Bank , Austin, TX	Jul 2024 – Present
<i>Business Intelligence Analyst</i>	
• Analyzed transaction activity across 5,000+ merchants to identify fraud trends, quantify business impact, and support risk strategy optimization. • Developed a performance framework for 30+ fraud-monitoring rules, reducing false-positive declines by 15% and preserving \$2.3M in annual revenue. • Automated reporting and dashboarding processes using SQL, Alteryx, and Tableau, reducing analysis turnaround time by 88% (4 hours to 30 minutes). • Partnered with Risk, Operations, Product, Engineering, and Customer Service teams to implement process improvements that reduced fraud rates from 1.7% to below 1%. • Evaluated PRISM risk model performance across digital wallet transactions, recommending feature enhancements that improved strategy ROI from 6.2x to 15.9x (156% increase). • Implemented data validation controls and business-rule testing supporting AI-driven anomaly detection initiatives, improving model reliability and reporting accuracy across production reporting.	
Flipkart , Hyderabad, India	Jan 2020 – Apr. 2022
<i>Data Analyst</i>	
• Analyzed 2M+ website sessions using SQL, Google Analytics, and Tableau to evaluate GTM channel performance, customer acquisition trends, conversion behavior, and improving website conversion rates by 12%. • Built customer segmentation and conversion analyses, identifying high-value customer groups that increased repeat purchases by 14% and average order value by 7%. • Built a centralized reporting dataset using SQL, Python, and Tableau, integrating sales, inventory, and e-commerce data to improve visibility into business performance across teams. • Automated KPI reporting and executive scorecard tracking revenue, conversion, inventory turnover, and fulfillment metrics across 50+ retail locations. • Developed forecasting and inventory dashboards that improved replenishment decisions and reduced stock-out incidents by 22% during peak demand periods.	
<i>Intern</i>	Jun 2018 – Dec 2019
• Built ETL/ELT workflows using SQL and Python to integrate customer, sales, inventory, and e-commerce data into analytics-ready datasets, improving reporting accuracy and enabling faster business insights across teams	

PROJECTS

- **NYC Taxi & Rideshare Analytics (SQL, Power BI):** Built interactive dashboards on 1M+ trip records to track trip demand, revenue, driver pay, and location performance, uncovering operational bottlenecks and peak demand trends.
- **Healthcare No-Show A/B Test (Python, SciPy):** Ran a statistical SMS experiment $p = 0.04$ on patient no show rates, projecting \$61K annual revenue recovery at \$211 cost, translating a p-value into a CFO ready business case.

EDUCATION

The University of North Texas , <i>Masters of Science in Information Systems and Technologies</i>	Denton, TX
Jawaharlal Nehru Technological University , <i>Bachelors of Science in Electronics and Communications Engineering</i>	Hyderabad, IN
